

# Spatial dynamics and strategic planning in metropolitan areas – SPIMA

**ESPON-ECTG Targeted analysis project**  
**Kick off meeting 28-29 November, 2016**

**Name Stakeholder city**  
**Brussels-Capital Region**

**WAGENINGEN**  
UNIVERSITY & RESEARCH

# Brief introduction of your city as a stakeholder in ESPON-SPIMA

- Key challenges addressed in planning of the city?
- Geo context: MA spread over 3 Regions
- Institutional and political context:
  - Autonomous regions with exclusive competence on spatial development
  - Strong political division between French speaking and Dutch speaking
- Key issues: Mobility, demography and housing, data collection
- Key expectations from the SPIMA project?
- Analysis and guidance / tools and approaches
- best practices from similar typology of cities

# Why your city needs a metropolitan planning approach (MPA)?

Indicate key needs for MPA and explain why, for example:

- Find flexible mode of governance respecting the competencies of each actor
- Collaborate between different governance levels: local, regional, core city and neighbouring municipalities: multilevel-governance
- Improve existing governance practices on projects or zones
- EU funding to develop metropolitan collaborative projects, tools and approaches

# Which key actors will benefit most from a metropolitan planning approach?

Indicate the relevant actors and explain why, for example:

- Urban planning departments of the 3 Regions
- Statistical departments of the 3 Regions
- Regional decision makers/politicians
- Municipalities

## Driving forces

- Private sector and associations:
- Other policies departments developing Met projects
